Vision for Learning

Preparing our students to be College and Career Ready includes fostering 21st Century Skills and integrating technology. In order to guarantee equitable access to the full range of digital resources for all students, an iPad will be provided to the third through twelfth grade students. The sixth to twelfth graders will be issued a take-home device.

Daily use of the iPad is required to access textbooks, digital resources, and a variety of other instructional applications. The goal for teacher and student use is to increase collaboration, critical thinking skills, and creativity. Citrus County Schools strives to immerse our students in personalized, rigorous, and relevant learning experiences.
